\*\*\*\*PRESS RELEASE\*\*\*\*

May 11, 1996

Walkabout Travel Gear, which supplies independent travelers with essential gear and information, has a new Internet address. It is: <http://www.walkabouttravelgear.com>.

Besides a new name, there are several other important items of interest. First, we're proud to report that we have been awarded Point's award for being one of the top 5% of all sites on the Internet. Additionally, we have greatly expanded our travel data bases. A worldwide index to foreign telephone jacks (so you know which telephone adapter to take if you travel with a computer) has joined our popular worldwide foreign electricity index. Other databases include ones on malaria, international health insurance, a large page of travel links, and more.

We hope you'll visit us in our new home.

Thanks,

Brad Boyle  
Owner, Webmaster
